

ARE YOU SURE YOU KNOW WHAT I WANT?

Why do we need to think about requirements?

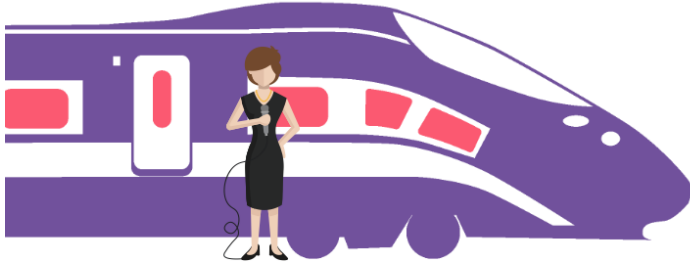

Client (me)

Engineer (you)

It is the first time that the world's largest train arrives in this city.

Too many people!

More taxis please!

Someone should have thought about that...

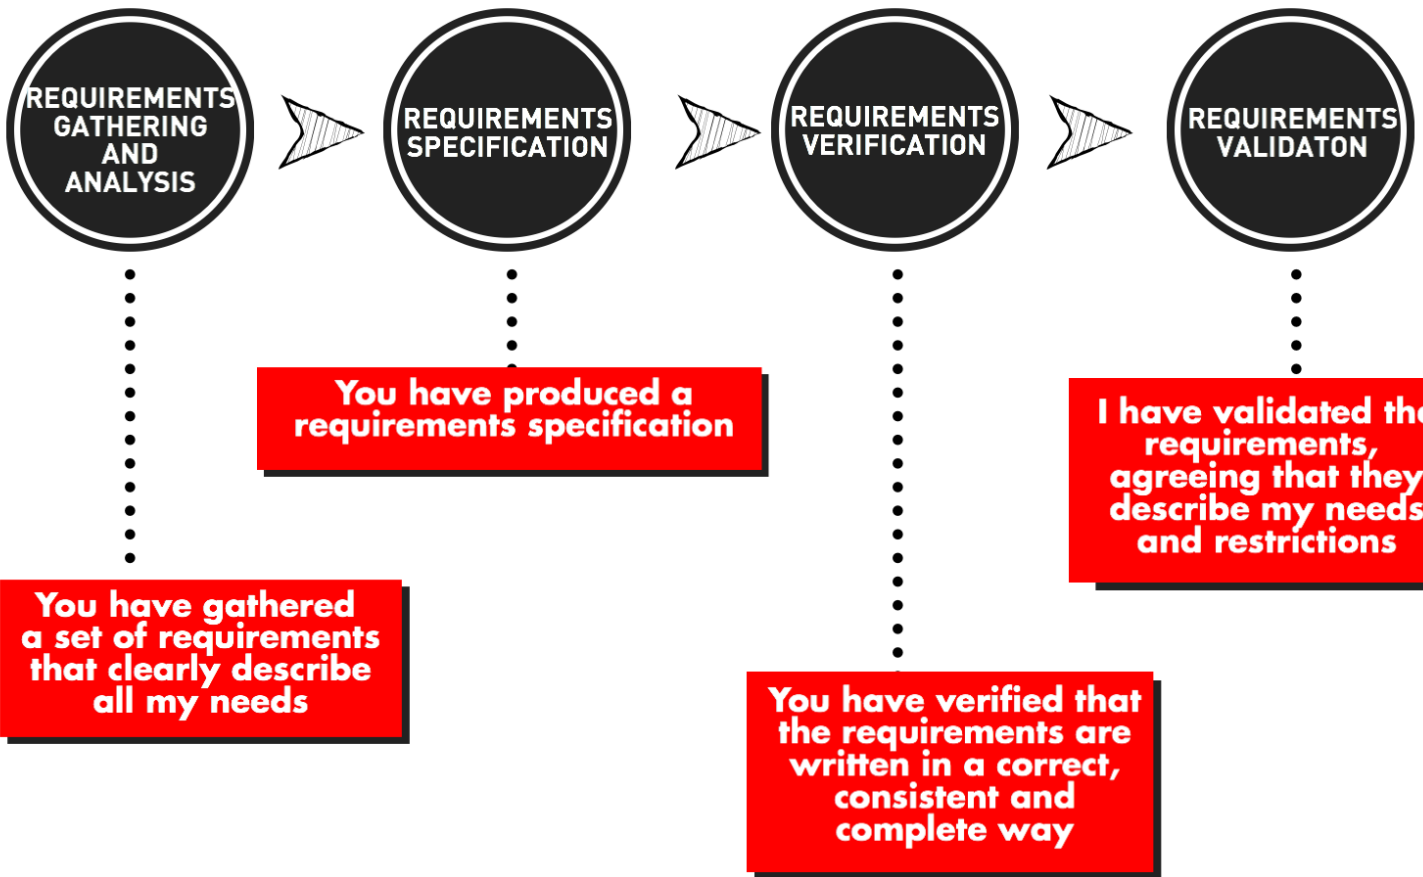

The best travelling experience must consider ALL the aspects!

"It is always necessary to consider all different perspectives, from all different stakeholders."

THE REQUERIMENTS ENGINEERING PROCESS

An engineer must clearly describe the customer's and other stakeholders' needs using requirements

OBJECTIVES

CERTIFICATION

SAFETY

"... for any system"

Requirements engineering is the foundation of successful software-systems development and management
