

## Discussion Forum Best Practices:

Here are a couple of helpful hints to using the discussion forum.

- Enclose your equations with the dollar sign (\$) to activate "math mode". If you want to practice, go to the discussion forum and try typing the following text into your text box:  $E_{\text{mass}} = m \cdot c^2$
- Actively upvote other posts, and other people will upvote yours! The most upvotes your post has, the more likely it is to be seen. Don't forget to upvote your own posts!
- On each video page of the lecture sequences, there is a link at the bottom that says "show discussion". Clicking on this link will show all discussion on the forum associated with this particular video.
- If you are reporting a bug, tag your post with "bug". If you need the teaching staff to see your post, please tag "staff".
